COUNCIL DEALS WITH REPORT OF INVENTORY

After Some Explanation and Corrections Report is Ad- opted—Court of Revision for Voters List Set.

A special meeting of the town council was held in the council chamber last Monday evening. Mayor Bott occupied the chair and Councillors Ireland, McLaughlin and Devitt were present.

The meeting was called to consider the report of the stocktakers. This was submitted to the public works committee at the last regular meeting to check over with the engineer and find out where the discrepancies were. The engineer reported that this was done and it was found that the stocktakers had made some mistakes in counting some animals. They had also taken into stock some sheep which was not in the stockholders' inventory.

The report as revised by the engineer was then adopted on motion of Councillors Ireland and McLaughlin. A letter was read from the Morgan Dean Company asking for information regarding the delivery of the horse-drawn car for sale at the present time, and also asking for a one month's option on some of them.

Councillor Ireland thought it would be a good idea if the council would allow the taxes for 1916 to be paid in instalments. It would be much more convenient for working men and would be thought by the men of getting more taxes paid up. The matter was left in abeyance for the present.

At the new voters lists are now completed and open for inspection the council decided to sit as a court of revision on Saturday, March 20th, from 10 to 4:30 in the afternoon, to consider any complaints for same.

On motion of Councillors McLaughlin and Devitt the secretary was instructed to write Councillor Robertson and Mrs. Robertson conveying to them the sympathy of the board in their recent sad bereavement.

On motion of Councillors McLaughlin and Devitt the assistant of Messrs. Plath and Johns for taking stock was passed and ordered paid.

Plot to Blow up New York Stopped

An anarchistic plot to blow up St. Patrick's Cathedral in New York last Tuesday was tipped in the bud by some very clever work on the part of the detective force. It is stated by the police that this was to have been the beginning of a series of similar acts of destruction which the anarchists have been planning for months. According to their plan, all the big banks and the residences of New York millionaires were also to be blown up and their owners to be slain. The try for the capture of the man who was to destroy St. Patrick's Cathedral was well laid. Every official of the cathedral from the priest down was a detective in disguise and the bomb thrower arrived he was surrounded on every side by detectives. He took the bomb from under his coat. In the face and there it was but after he saw each detective was in his place the fuse was extinguished and the man placed under arrest in less than five minutes to about it. The whole affair made like a story book.

UNITED STATES MAY

PROTECT THE HOLY LAND
The "rebel" of the United States, as the most powerful neutral tolerant state, being placed in some position of supervision of the Holy Land, has been considered in responsible quarters, where even now study is being given to a discussion of the matter.

The feeling against Turkey is in temper, and no great of the fact is made that it is not that Turkey is to be forced to give up protection of the Holy Land.

Fake Beggar Woman Solicits Alms in Town

On Wednesday of this week a rather smooth beggaring artist visited town because of the pitiful lack of work put up she succeeded in taking in a fair day's pay from the charitable people of Redcliff. Her story was that she lived about four miles from town and was in a desperate condition. To make her position more pathetic, she had a husband who met with an accident while working in the coal mines and was now blind. She was not exactly begging as she promised to pay back any money she might get—some day. It was money meticulously she carried but when offered food or clothing she graciously accepted and said a farmer who lived near them would call around with a team and get the parcel.

The relief committee investigated her case and of course found her a fake. She is evidently making a business of this work as she left on the evening train for Swift Current.

It is too bad that the real needy must sometimes be made to suffer because of these fakes. As we have a relief committee in town it is not necessary that this should follow here. Some of the members of this committee have suggested that the Review should find out the names of those who give their donations for charity direct to this committee and when people call at houses soliciting alms that they be directed to the relief committee, where their case will be properly investigated.

Donations for this purpose might be left with Mr. Albrecht, chairman of the committee, or any member of the committee, or the Review office. Cases similar to the above mentioned woman should also be reported at once to any of the above.

Meeting for Farmers In Medicine Hat

With the object of impressing upon the farmers, dairymen and stockmen of the Dominion the duty to the Empire at the present time, the department of agriculture is holding a series of meetings. One of these will be held in Medicine Hat on March 20th. As a number of important matters of interest to farmers will be discussed there should be a large turnout.

The posters are headed "Patriotism and Production" and state that the three speakers will be present to deliver lectures. The subjects of the speakers will be "The Economic Necessity," "The Financial Opportunity," and "Canada's Patriotic Duty," all relating to agriculture.

KNEW-RIM BY HIS ANSWER.

[London Opinion.]
The commanding officer took a position with the object of determining for himself how the soldiers behave towards enemies, and whether or not troops seriously regard the position as regards discipline. Presently the tramp of approaching footsteps is heard, "Halt, who goes there?" "Goats grey," was the clear reply, "Pass on Scots Guards." The sentry's reply: More footsteps. "Who goes there?" "Grandeur Guards" came the answer. "Pass on Grenadier Guards." More footsteps. "Halt, who goes there?" "None of your business," came the reply. "Pass on Canadian" said the sentry.

According to Calgary papers there are one million bushels of seed oats now in the C. P. R. yards in that city awaiting distribution. Tuesday is also a number of cars in the Hat. It would be a good idea if the officials would get busy and have them sent around to the different points where the getting is good. We may expect a break up any time now.

The angel of death visited the home of Mr. and Mrs. D. P. K. Robertson last Monday and took away their infant daughter, Edith. The child, who was only six months old, had been in the best of health until just a few days before when she contracted a cold which developed into bronchitis. The funeral took place on Tuesday in the Medicine Hat cemetery. Mr. and Mrs. Robertson have the sympathy of their many friends in their sad bereavement.

CANADIANS HOLD THE ENEMY FOR A WEEK

Troops Behaved like Veterans and Showed Great Spirit—Were Under Heavy Fire—Fought in Water Knee Deep.

For seven days the Canadians have been fighting against the Prussian Guard and Saxons in the first line trenches. They have shown themselves splendid soldiers, and losses, contrary to reports, have been surprisingly small. Sixty-three were disabled owing principally to frost-bite sickness.

In their first engagement the men did like good soldiers, being cool under heavy fire, while their discipline was good generally. They fought for 24 hours and then were relieved for that period by British troops.

The Canadian infantry were separated from the enemy by only 85 yards, while others were 700 yards apart. Some of the trenches were knee deep in water, and many of the men suffered from exposure. Other trenches are quite dry and dugouts are snug.

Until moved up to the front, the Canadians in the reserve trenches were under every variety of gun fire, from "Jack" bombs to the common shell.

According to an officer who has just returned to the base, the men conducted themselves admirably. The infantry would have welcomed a frost-bite charge to relieve the monotony of the work in the trenches, but this was impossible owing to the wire entanglements and the muddy field so wetting the trenches.

On one occasion Prussian Guards charged the Canadians, but were caught by wire entanglements and the Canadian trenches, and a whole company was mowed down.

From each company crackshots were chosen as snipers, and they did effective work. Every man was cool and in a few hours after getting into it, fought as though fighting was an everyday occurrence. At first the strain was terrible, but the men soon got used to it. They were instructed to keep their heads low, which they did. The men suffered from the cross fire and the British artillery killed the German guns.

The Canadians were so close to the Germans that the enemy tried to throw hand grenades but failed.

S. A. Rebellion More Serious Than Expected

At a meeting in Cape Town of the South Africa assembly, Finance Minister Smuts announced that during the recent rebellion of the Boers, aided by Germans from German possessions in Africa, thousands of casualties occurred and ten thousand men were killed or were taken prisoner. At the rebels will be kept in prison until the end of the war, owing to the impossibility of prosecuting such a large number. Two hundred and sixty-three ring-leaders will, however, be punished.

The government relief agent here has received no word yet as to when the seed grain will arrive. We understand that several cars already in Medicine Hat awaiting instructions for the disposal of the same.

Frank Timmer was one of the first backsliders on the new Royal Bank building here last fall, was found dead in his quarters in Medicine Hat last Monday. His death was caused by heart failure. Deceased had a wife and small family in Montana.

Mr. Tupper, of the firm of Gibson & Tupper, returned to town last week after spending the winter in other western countries. During his absence he has visited a number of different places and returns convinced that Redcliff is as good as any now, and has better prospects for the future.

SWITCHING CHARGES HAVE BEEN REDUCED

The question of switching charges by the C. P. R. for switching cars to the different manufacturing plants here has been the source of great consternation ever since the town started but until lately there has been no sign of redress. After trying every other means Mayor Bott and W. J. Kyles, president of the local car trade, brought the matter to the attention of the railway commission during their sitting in Medicine Hat last fall. It will be remembered that at that sitting the representatives from Redcliff put up a strong argument and were more than a match for the commission's representatives. Their efforts have borne fruit and we are informed today that word has been received from the railway commission to the effect that in future we will have more satisfactory switching charges. In the past our industries were charged a flat rate of \$10.00 for any switching, whether for one car or more. According to the new schedule the rate will be \$2.00 per car.

HALIFAX BOMBARDED

By her own guns Halifax was given an idea of what a bombardment from the enemy would feel like. A small gunboat, the Humber, was in the harbor and got orders from the battery to report. This she failed to do and a twelve pound shell was fired at her from the battery. The shell hit and resulted in the destruction of the water and struck a house in the heart of the city. It went through this house and into the next door. No one was hurt but both houses were badly damaged.

Not Much Change In War Situation

Very little news of any startling nature has come from the seat of war for the past week. On land there has been very little change in the situation. While the Russians continue their progress against the Germans in North Poland, they are, according to their official report, pursuing and capturing many of the retreating German units in eastern Galicia, and are repulsing with heavy losses persistent day and night attacks of the German allies in the Carpathians.

As regards the French have been constantly attacking the Germans and report that the enemy is now at their mercy and that their moral superiority is assured.

At the Dardanelles an encounter with the Turkish fleet has been daily expected but latest reports state that the enemy did not at the approach of the allied squadron.

The attack on the fortresses in the Dardanelles continues. The admiral has not yet reported on the results obtained within the straits. An observation station on the Gallipoli peninsula, and the Saphire bombardment ship, and troops at various points in the Gulf of Adramytti.

Six modern field guns at Fort 8 have been destroyed, bringing the total number of guns demolished up to forty.

FIRST SENTENCE FOR ALIEN ENEMIES.

The first sentence inflicted in Calgary under the order-in-council dealing with the status of alien enemies was inflicted this week by Superintendent Morrison, R. N. W. M. P., when he ordered Baron Henry von Wessell, an ex-officer of German artillery, to pay a fine of \$250 as he failed to be imprisoned in Macleod jail for a period of three months (the maximum period prescribed under the order) for having figures in his possession contrary to the terms of the order. Accused will be interviewed after serving his sentence or after he pays the fine.

When sending money to Europe by a Dominion Express Foreign cheque, A. J. Nicholson sells them.

Rev. G. V. Gordon has been confined to his home for the past few days suffering from a severe attack of rheumatism and cold. We are glad to report, however, that his illness is not serious.

Unusual Case at The Police Court

A very unusual case was up for hearing before the magistrate last Monday afternoon when Dr. Wall appeared in connection with the charge of unlawfully taking possession of a certain building. It appears from the evidence that the defendant had done some professional work for a man named Lauglin. A. McGregor, who is acting as agent for Lauglin, took steps to have the building rented but before the delicate points in connection with the case could be satisfactorily settled it was necessary to resort to the courts. The defendant claimed that the building was slightly damaged in the moving. The shack was returned to its original site and the court ordered that Dr. Wall pay \$3.00 for damage done and also the costs of the court.

Presbyterian L. A. Elects Officers

At the regular meeting of the Presbyterian Ladies Aid held in the church yesterday afternoon the election of officers for the ensuing year took place and resulted as follows: President—Mrs. C. W. White, Vice-President—Mrs. E. Blair, Secretary—Mrs. Ed. L. Stone, Treasurer—A. Symon.

At this meeting it was also decided to continue the work of knitting caps for the soldiers, and for this purpose the Aid will meet in the church every Thursday afternoon.

At the conclusion of the business of the meeting, Mrs. Gordon presented refreshments in honor of Mrs. Black, one of the members of the Aid who is leaving town in the near future.

Advices Less Land And Better Farming

At a meeting held recently by representatives of the Dominion government in furtherance of the campaign for increased agricultural production, the Fairchild of the Lethbridge experimental farm gave some good advice to farmers.

To accomplish the patriotic aim of increased production," Mr. Fairchild said, "the only safe and sane way is to prepare the land well and not to be over anxious to increase the acreage."

He preached the doctrine of intensive farming rather than of succumbing to the temptation to spread out farm money over as much acreage as possible. He declared that the time had gone by when they could afford to speculate and to put more land under cultivation than could really be fed.

In the past they had gone at it in a top-sid way. It was erroneous to think that increased acreage meant increased production. Nevertheless the patriotic aim truly the farmer would have to know how to farm better. In that way only they could ensure greater production.

"What we need," he said, "is to plow better. If we plow with a 14 inch blow don't let us make an 18 inch furrow. When we do let us plow thoroughly. Let us get the most possible out of our field."

"With the moisture in the soil at the present time, with the high rainfall of last fall covered by the snow that is lain on the ground all winter, it has a long time since we were in better shape to begin operations."

Southend Hockeyists Come Back Strong

An interesting game of hockey was played in the south end rink on Wednesday evening between the north and south end. The southenders won by a 2 to 1 improvement since last season. These two teams met and were thus able to turn the tables on their opponents. The south end was easily by equals to 2.

SUGGESTION TO ENCOURAGE GARDENING

Would Give Prizes For Best Kept Gardens, Lawns and Back Yards—Subscription List Already Started.

As a step in the direction of beautifying our town and encouraging our citizens to take more interest in their gardens, lawns and back yards, it has been suggested to the Review by Mr. McLean, of the Rolling Mills, and Mr. Lancaster of the Royal Bank, that we start a subscription for the purpose of raising a fund to give prizes along these lines. The suggestion is that three prizes be given. One for the best kept garden, one for the best lawn, and one for the best back yard.

The Review thinks this is a capital idea and at once offered its assistance in every possible way to bring the matter to the attention of its readers and help carry it through.

Learn the object of the suggestion of the two gentlemen above referred and with this issue start the subscription list out under a subscription for the purpose as will be given in a future issue.

If any suggestion meets with the approval of a sufficient number of our citizens we would suggest that a meeting be called to meet on one of the lawns, where the matter can be thoroughly gone into. Committees will have to be appointed and judges selected. There will also have to be a set of rules and regulations drafted to govern the competition. This should all be done now so that everything will be in shape to meet the matter as soon as weather permits getting on the lawn.

The subscription list for this purpose is now at the Review office and, although it was only started this morning we have the following very satisfactory showing:

Learn the object of the suggestion of the two gentlemen above referred and with this issue start the subscription list out under a subscription for the purpose as will be given in a future issue.

The 'let's still open at this office and be given only at this office to help.

Burns Club Hold Whist Drive and Dance

The Burns' Club held their annual whist drive and dance in Redcliff hall last Tuesday evening. There was a good crowd in attendance and one of the pleasantest evenings of the season was spent. Progressive whist was the first item on the program and in this competition every table provided was filled. The players entered heartily into the game and the competition was a close one to the finish. The following were the winners: Ladies, Mrs. Tovey; gent, Mr. D. Kerr. Miss Swanson won the ladies' bridge and G. McKay the gent. After a fine supper was served the floor was cleared for action and dancing was the order of the evening. The floor was in good condition and the excellent music rendered by the Redcliff orchestra left nothing to be desired.

GERMANY STOPS RELIEF

SHIPS GOING TO BELGIUM.

The German government has determined to refuse to grant any more safe conducts for American relief ships to coast at English ports for coal on the homeward voyage. It is also reported that a permit for the return voyage to the United States will be given only to vessels which take the ocean north of the Shetland Islands.

The American minister to The Netherlands, Henry Van Dyke, on being asked of this news, said: "I am infinitely sorry for this. I have done my best to get a better answer from Berlin, but none comes. Surely alone suggested in this humane work ought to be sacred, but it seems not. Just now the case looks dark. God pity Belgium if the decision stands."

General News Notes

From Various Points

Eighteen of Canada's soldiers have been brought from the front to a London hospital during the latter part of last week.

France and Great Britain served notice on the United States that they would hold themselves at liberty to stop all shipments hereafter to and from Germany.

There is a panic in Constantinople, and many inhabitants are leaving. Internal trouble is imminent. The cabinet has decided to transfer the seat of the government to Bursa, Asia, Minor.

Carrie Davies, the 18-year-old English girl placed on trial charged with murder for the shooting of Charles A. Massey, of Toronto, was found not guilty at noon last Saturday by a jury in criminal assize court.

In the house of commons Mr. Asquith, the prime minister, is moving a supplementary credit of £97,000,000 and a fresh credit of £550,000,000, pointed out that the total of the credits for the financial year 1914-15 was £662,000,000. That represented, broadly speaking, the difference between expenditure on a peace footing and expenditure on a war footing.

A French cruiser has accented the American steamer Duca in the channel and taken her to Brest. This announcement was officially made.

In all the Belgian towns along the Dutch frontier, posters are displayed calling upon the population to prepare for the billeting of a great number of German troops.

The allied fleet on Wednesday bombarded and reduced to silence the forts of Daykema, Hafidich, and Tchemerlik, on the Asiatic side of the inside Dardanelles. The telegraph station at Boukias also was demolished. The bombardment was carried out by pine ships, which advanced two miles up the straits.

In speaking of the German blockade Admiral Charles Beresford, said: "Germany will sink no American ships—unless by design. The German torpedoes finding as its mark the hull of an American vessel will have been aimed and fired from Berlin. If an American merchantman is will be for the express purpose of dragging America into the war."

In their determination to relieve Przemysl and drive the Russians out of Galicia, the Austro-German armies, which for some weeks have been on the Galician side of the Carpathian mountains, have during the last few days made repeated attempts to break through the Russian entrenchments, but without success.

The officers and crews of British warships present at the capture or destruction of any armed hostile ships will share in the distribution of prize money calculated at £5 (£25) for each person on board the enemy's vessel at the beginning of the engagement.

After having completed the destruction of the forts at the entrance of the Dardanelles, the allied fleet of British and French warships, the lion, now is attacking the inner forts which heretofore have stood between Turkey and invading by the sea.

The resolution of which Mr. W. F. Cookhott gave notice some time ago calling for the regulation for the prices and export of food products was debated at length in the house last Monday. It received a rather mixed reception and was finally turned down.

Four English army officers from Montana, Minnesota, Wyoming and California met in Chicago on cable orders to return home at once. They interpreted their recall to mean that England believed the allied fleet, by forcing the Dardanelles, will enable the allies to utilize Russian supplies instead of buying from the United States.

Brandon has been made the center for remount purchases and mobilization for the entire west, and the officers will be moved there from Calgary at the end of the present week. The announcement leads color to the recent report that there will be a large concentration camp at Sewell this spring and summer, as Brandon is so close proximity to the camping ground.

HOW TO ADDRESS LETTERS

FOR CANADIAN SOLDIERS.

Now that the Canadians or most of them have crossed over to France there are many inquiries at Ottawa as to how to address letters. Units are being so shifted that the militia headquarters cannot say definitely where any particular battalion is stationed. It is suggested that the regimental number of the soldier, his unit, brigade etc. be given and the letter then addressed to Canadian expeditionary force, care general post office, London, England. The authorities there will find out from the war office where any corps is located and will forward mail without delay.

BRITISH GUNS ANSWER

TO GERMAN BLOCKADE.

The establishment of a virtual blockade of hostile countries by Great Britain's reply to Germany's attack on merchant shipping as announced officially by Premier Asquith in a momentous speech in the house of commons last Monday.

The plan of the allied governments for the regulation of shipping to and from ports of hostile nations contemplates the prevention of commodities of every kind reaching or leaving these ports, without, however, involving risks to neutral vessels or their crews. The allies will hold themselves at liberty to capture goods presumed to have come from hostile countries or to be destined for them. They have no intention, however, of confiscating ships or cargoes which are detained unless they are liable to confiscation under normal conditions of war.

Germany's total army of both trained and untrained men, consists of 9,898,000 soldiers, according to an announcement made by Under-Secretary of State for War Tennant in parliament.

The United States government ship purchased off-war withdrawn in the name by Senator Fletcher, with the announcement that he would not

again attempt to take it up, because it was evident that the opponents had the power to defeat it by talking it to death.

NOTICE!

The revised Voters List of the town of Redcliff is now open for inspection at the office of the Secretary-Treasurer, and will remain open for two weeks ending the 19th inst.

The council will sit as a court of revision on the 20th inst. at the town hall between the hours from 4 to 4:30 p.m.

It is up to you to see that your name is on the list.

B. J. BOTT, Mayor.

ITEMS OF LOCAL INTEREST

For the latest hair ornaments and novelties see Gibson & Tupper.

March came in like a lamb, but March is generally all lamb in Alberta.

A number of homes in the Breese-lawn district are at present quarantined for scarlet fever.

Councillor Black left last Sunday evening for Grenfell where he will reside in future, going into the hotel business there.

Feed cuts for farmers are being distributed from Medicine Hat. As yet the relief agent here has received no notice as to whether there will be any feed grain shipped to this point.

F. P. Murdoch, at one time manager of the Merchants Bank here, was in town for a few days this week. Pat still has the smile that won't wear off and all his old friends were glad to see it.

We now stock the celebrated Pearly gloves for ladies, gents and children. Gibson & Tupper.

The executive of the prohibition works for Redcliff constituency meets in the Presbyterian church on Tuesday evening at 9 o'clock. The sympathizers with prohibition in Redcliff town are invited to meet for organization in the church on Monday evening at 8 o'clock.

The revised voters list is now open for inspection at the town hall. This is to give every taxpayer a chance to see if his name is written there and if not to see that it is if he is entitled to have it there. Don't leave it till the last minute to investigate. Do it now.

KEATS
MY GROCER

Blundell's Library, is a book.

Corporal Walker, who has been in the hat with the mounted rifles, returned yesterday in plain clothes.

See Gibson & Tupper's new line of men's trousers. The best for the money ever offered in Redcliff.

Mrs. Wm. Keats is spending a few days this week in Medicine Hat visiting friends.

Papers are now announcing that bread is rising. That's nothing new. Bread always did raise. In fact it is no good unless it does.

Councillor Robertson is still confined to his home and although gradually improving is only allowed out of bed for a short time each day.

A sleigh load of young people drove down to Medicine Hat last Tuesday evening and took in one of the theatres.

Miss Bella Watson has been engaged on the post office staff to take the place of Miss McKellar who is leaving town on a visit.

The grand jury threw out the bill charging manslaughter against the Canadian soldiers who fired on the American duck hunters last fall, killing one and wounded another.

D. L. McKenzie, who at one time had charge of the Atlas Lumber yard here, but who is now travelling superintendent for the company, was in town for a few days this week on business.

Great interest is being taken in the vacant lot gardens in Medicine Hat. A club to oversee the work has been organized and, judging from reports, they intend going into the business on a big scale. One of the aldermen has signified his willingness to try out an irrigation system for this purpose.

Jan. Merry just received word from some saying that his 15-year-old brother had left for the front. Mr. Merry now has four brothers in the firing line. One is in Egypt with the Australian contingent and the others in France. Jimmy is thinking seriously now of enlisting himself.

The Redcliff Rolling Mills opened up again today with about 30 men on the staff. It was closed down for a few days this week to repair the machinery but now everything is in good running order with prospects good for a long season.

Begin early or now Perry's Seeds. Buy now while the assortment is complete. All fresh stock. Blundell's, First street.

Hellen Johnson, the infant daughter of Mr. and Mrs. Martin Johnson, of Breese-lawn, died very suddenly last Saturday afternoon. The child had contracted scarlet fever and passed away after only a few days' illness. Four more children in the same family are now down with the fever but they are progressing favorably.

The members of the No-in-on were entertained last Saturday evening by Mr. and Mrs. Frank Broughton. Whist and a musical program made up the first part of the evening, after which, lunch was served. Dancing brought the most enjoyable social evening to a close. The club will meet at the home of Mr. and Mrs. D. C. Smith next Saturday evening.

Sell your old accounts! We will buy them. Send them today! Crown Mercantile Agencies, Calgary.

For the latest styles and patterns in ladies and gents made to measure garments. See Gibson & Tupper.

Major-General Steele is expected in Medicine Hat today to inspect the mounted rifles. Col. Simons will accompany him east as far as Winnipeg.

The soldiers now in training at the Hat were treated to a pie feast by ladies of that city. The question now is whether it will make them plous or crusty.

MISCELLANEOUS ADDS.

WANTED-To buy shack; must be cheap. Address O. Review.

LOST-A pair min eyeglasses in Redcliff, in black case with Hoffman written on; finder please leave same at this office.

FOR SALE-Desk stove and furniture cheap; all in first-class condition. 3 heaters, one small range; several complete lighting fixtures at a bargain. Apply at once, box 207, Redcliff post office.

A. SYMON

Practical Watch Maker,
Jeweller, Engraver and Optician. Issuer of Marriage Licenses.

a. m. Special lent service at 7:30 p. m. the preacher to be the Rev. A. M. Harding.

Friday: Evensong with litany and intercession for the war at 7:30, followed by choir practice. Remember the Thursday night during Lent and come to the special services that are being held at 7:30, when the Rev. A. M. Harding will be the special preacher again this week. Lent will soon be gone and with it another opportunity of grace. Let it not pass unheeded.

BAPTIST CHURCH.

Services in Radio Hall.
Morning worship at 11 o'clock; subject: "Jonah."
